

Timekettle

M3

Translation Earbuds

Explore The World Without Language Barriers

Unparalleled user experience

Forget the clunky handheld translator. Instead, M3 is our all-new translator earbuds perfectly designed and engineered ergonomically and aesthetically. No more passing a device back and forth. Just speak and translate!

Your must-have for exploring the world

M3 integrates music and translation features to accommodate your everyday needs to explore the world. Whatever comes your way, you are always taken care of with a simple switch.

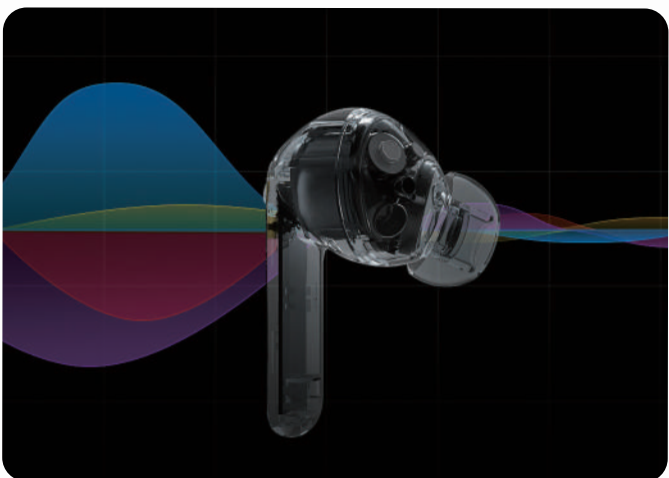

Professional-grade EQ tuning

Equipped with $\Phi 10\text{mm}$ diaphragm high-performance speaker tuned by Timekettle acoustic lab, M3 can output four-channel analog stereo sound and support AAC, mSBC high-quality decoding that brings incredible three-frequency sound experience.

Smart Noise Reduction

M3 can achieve a maximum depth of 30dB active noise reduction with our high-precision ANC controller, all while keeping the comfort in your ear. So don't compromise on the noise. Hear every detail of the rhythm.

Up to 95% Accuracy, 0.5s Delay

Powered by the world's 6 leading translation engines (DeepL, Google, Microsoft, iFlytek, AmiVoive, Hoya) and Timekettle its own, the M3 earbuds deliver faster and more accurate translations to your meetings and conversations.

3 Smart Modes, For Every Occasion

TOUCH MODE

No need to pause between sentences to translate. With our patented simultaneous interpretation technology, M3 can automatically pick up your voice and logically segment your speech into sentences so you always have a fluent conversation.

LISTEN MODE

This mode can recognize, pick up sentences automatically, and translate them into selected languages that plays continuously right in your ear. What's more, the script is automatically saved for your review anytime.

SPEAKER MODE

It is easy to work by wearing one earbud with your smartphone to begin short conversations with anyone for directions or ordering food in foreign countries.

Dual Bluetooth 5.2

With 40nm ULP craftsmanship and a built-in 32-bit high-performance RISC-V chip, the M3 supports Digital Signal Processing and neural network accelerators. In addition, our integrated dual Bluetooth 5.2 offers ultra-distance transmission of more than 10 meters with low latency.

25-hour battery life

M3 lasts approximately 7.5 hrs on a single full charge and up to 25 hours with the charging case. So live your day to its fullest.

As the top-selling brand in the translator device industry, Timekettle now has the largest market share on Amazon, serving hundreds of thousands of users in 171 countries and regions worldwide.

Media Highlights

BBC

The device that translates languages instantly. It's based on a device from THE HITCHHIKER'S GUIDE TO THE GALAXY. That's really impressive because it translates long words properly.

Forbes

Timekettle is ambitious with what it's trying to do here - that's worth applauding in itself.

The Sydney Morning Herald

Letting you converse with strangers in dozens of languages, Timekettle's WT2 earbuds ensure you're never lost for words when travelling abroad.

TC
TechCrunch

Timekettle's WT2 real-time translation earpieces enable ordinary conversation across language barriers
